DIRECTORY OF THE BUREAU OF ENTOMOLOGY AND PLANT QUARANTINE

ORGANIZATION

Office of the Chief

Chief of Bureau - Avery S. Hoyt, 4113 South Bldg. Tel. Republic 7-4142, Ext. 2745.

Assistant Chief of Bureau (Administration) - R. A. Sheals,
4133 South Bldg. Tel. Republic 7-4142, Ext. 6161.

Deputy Assistant Chief of Bureau (Administration) - Henry G. Herrell,
4133 South Bldg. Tel. Republic 7-4142, Ext. 3817.

Assistant Chief of Bureau (Control) - W. L. Popham, 4113 South Bldg.
Tel. Republic 7-4142, Ext. 2464.

Staff Assistant (Control) - Emory D. Burgess, 4119 South Bldg.
Tel. Republic 7-4142, Ext. 6030.

Staff Assistant (Control) - J. F. Martin, 4123 South Bldg.,
Tel. Republic 7-4142, Ext. 5467.

Staff Assistant (Foreign Technical Programs) - Edson J. Hambleton,
4150 South Bldg., Tel. Republic 7-4142, Ext. 2914.

Aircraft and Special Equipment Center - Kenneth Messenger,
Oklahoma City, Oklahoma.

Assistant Chief of Bureau (Insecticides-Chemistry) - H. L. Haller,
4123 South Bldg. Tel. Republic 7-4142, Ext. 4950.

Assistant Chief of Bureau (Regulatory) - Vacancy.

Staff Assistant (Regulatory) - R. W. Sherman, 3125 South Bldg.,
Tel. Republic 7-4142, Ext. 5616.

Assistant Chief of Bureau (Research) - F. C. Bishopp, 3113 South Bldg.
Tel. Republic 7-4142, Ext. 4328.

Staff Assistant (Research) - Clarence H. Hoffmann, 3115 South Bldg.
Tel. Republic 7-4142, Ext. 5428.

Special Assistant (Research) - R. W. Harned, 2104 South Bldg.,
Tel. Republic 7-4142, Ext. 6517.

Extension Liaison Representative - M. P. Jones, 4129 South Bldg.
Tel. Republic 7-4142, Ext. 2580.

ORGANIZATION - Continued

Divisions

Administrative -

Accounting and Auditing - A. F. Healy, in charge. 2125 South Bldg., U.S.D.A.
Tel. Republic 7-4142, Ext. 2579

Fiscal Control Section - Elmore F. St. Clair, in charge. 2121 South Bldg.,
U.S.D.A. Tel. Republic 7-4142, Ext. 5084

Fund Accounting Section - John J. Kiracofe, in charge. 2129 South Bldg.,
U.S.D.A. Tel. Republic 7-4142, Ext. 6526

Plans and administers an accounting and auditing program to meet the requirements of research, control, and regulatory programs of the Bureau, in accordance with the policies of the Bureau, the Agricultural Research Administration, the Department, and the Government agencies concerned with the subject matter of the Division.

Administrative Services - L. K. Wright, in charge; P. C. Wirth, assistant.
2132 South Bldg., U.S.D.A. Tel. Republic 7-4142, Ext. 4787

Procurement and Property Management Section - Charles T. Geiser,
in charge, 2130 South Bldg., U.S.D.A. Tel. Republic 7-4142, Ext. 5810

Real Property Management Section - P. C. Wirth, acting in charge.
2132 South Bldg., U.S.D.A. Tel. Republic 7-4142, Ext. 4787

Records Management Section - Edna E. Bushong, in charge. 2142 South Bldg.,
U.S.D.A. Tel. Republic 7-4142, Ext. 2163.

Plans and administers procurement, property accountability and management, records management, real estate, space and equipment management to meet the requirements of the research, control, and regulatory programs of the Bureau, in accordance with the policies of the Bureau, the Agricultural Research Administration, the Department, and the Government agencies concerned with the subject matter of the Division.

Budget and Administrative Management - Henry G. Herrell, acting in charge.
4133 South Bldg., U.S.D.A. Tel. Republic 7-4142, Ext. 3817

Administrative Management Section -

2110 South Bldg., U.S.D.A. Tel. Republic 7-4142, Ext. 2570

Budget Section - Mildred W. Syfrig, in charge. 2112 South Bldg., U.S.D.A.
Tel. Republic 7-4142, Ext. 2981

Administers a budget and administrative management program to meet the requirements of the research, control, and regulatory programs of the Bureau, in accordance with the policies of the Bureau, the Agricultural Research Administration, the Department, and the Government agencies concerned with the subject matter of the Division. Develops and assists in establishing required controls with respect to the apportionments and expenditures.

Personnel Management - Wm. F. Leffler, in charge. 2145 South Bldg., U.S.D.A.
Tel. Republic 7-4142, Ext. 4507

Classification and Organization Section - Earl W. Williams, in charge.

2143 South Bldg., U.S.D.A. Tel. Republic 7-4142, Ext. 5806

Employment Section - George E. Hanna, in charge. 2155 South Bldg., U.S.D.A.
Tel. Republic 7-4142, Ext. 3415

Training and Employee Welfare Section - Marion E. Yount, in charge.
2151 South Bldg., U.S.D.A. Tel. Republic 7-4142, Ext. 5597

ORGANIZATION - Continued

Divisions - Continued

Administrative - Continued

Personnel Management - Continued

Plans and administers the organization, classification, employment, employee relations, training and investigation phases of a personnel program to meet the requirements of the research, control and regulatory programs of the Bureau, in accordance with the policies of the Bureau, the Agricultural Research Administration, the Department, and the Government agencies concerned with the subject matter of the Division.

Control -

Aircraft and Special Equipment Center - Kenneth Messenger, in charge; John S. Riss, first assistant; Arthur Gieser and Donald Whittam, assistants. P. O. Box 7216, Oklahoma City. Located at Cimarron Field near Yukon, Okla. Telegraphic address: Oklahoma City, Okla. Tel. Windsor 2-6525.

Directs the development and modification of aircraft and special equipment for insect and plant disease control; and develops specifications and standards for aircraft work done for the Bureau under contract.

Information -

David G. Hall, in charge. 4130 South Bldg., U.S.D.A.

Tel. Republic 7-4142, Ext. 2991.

Current Information Section - Robert B. Rathbone, in charge.

4126 South Bldg., U.S.D.A. Tel. Republic 7-4142, Ext. 6049.

Editorial Section - Mary J. Edmands, in charge. 4134 South Bldg., U.S.D.A. Tel. Republic 7-4142, Ext. 4302.

Visual Aid Section - Frank P. Muto, in charge. 4126 South Bldg., U.S.D.A. Tel. Republic 7-4142, Ext. 6049.

Directs the informational program of the Bureau by preparation and release of material for the news and farm press, radio, television, feature articles, motion pictures, news letters, and exhibits; directs the official publications program of the Bureau and supervises editorial preparation and statistical review of all scientific, technical and other manuscripts prepared in the Bureau and submitted for publication.

Regulatory -

Plant Quarantines - E. R. Sasscer, in charge; H. S. Dean, assistant.

3114 South Bldg., U.S.D.A. Tel. Republic 7-4142, Ext. 4493.

Conducts scientific and operating phases of a regulatory program for the prevention of entry and spread of injurious plant pests under the Plant Quarantine Act of 1912, as amended, Insect Pest Act of 1905, Mexican Border Act of January 31, 1942, § 102 (b) of Department of Agriculture Organic Act of 1944 pertaining to sanitary export certification, and the so-called "Mollusk Act of September 22, 1951."

ORGANIZATION - Continued

Divisions - Continued

Regulatory - Continued

Plant Quarantines - Continued

Enforces quarantines, orders, and regulations prohibiting, restricting, or regulating:

- (a) the importation of foreign plants and plant products;
- (b) the movement of certain plants and plant products from Hawaii, Puerto Rico, and the American Virgin Islands to the mainland;
- (c) the interstate movement of articles covered by domestic plant quarantines through inspection at strategic traffic centers of shipments moving via mail and common carrier;
- (d) the importation and interstate movement of injurious insects;
- (e) the entry of railway cars, and other vehicles, freight, express, baggage and other materials from Mexico;
- (f) the movement of plants and plant products into and out of the District of Columbia;
- (g) the entry of injurious mollusks.

Inspects and certifies domestic plants and plant products to meet the sanitary import requirements of foreign countries. Assists States and Territories in enforcement of their plant quarantines and plant shipping requirements and acts in advisory capacity in enforcement by States and the Post Office Department of the Terminal Inspection Act of March 4, 1915, as amended.

Research -

Bee Culture and Biological Control - J. I. Hambleton, in charge;

W. J. Nolan and T. R. Gardner, assistants. Agricultural Research Center, Bldg. A, Beltsville, Md. Tel. Tower 9-6430, Ext. 371. Conducts scientific and operating phases of a research program relative to the biological control of insect pests and weeds through the introduction of natural enemies, both foreign and domestic; study of ecological and other factors affecting biological control; study of diseases of injurious and beneficial insects; study on practical and scientific aspects of beekeeping; and the development of methods for utilizing honey bees and other insects in the pollination of economic plants.

Cereal and Forage Insect Investigations - W. A. Baker, in charge;

K. A. Haines, first assistant; A. M. Vance, assistant. 3149 South Bldg., U.S.D.A. Tel. Republic 7-4142, Ext. 2990. Conducts scientific phases of a research program relating to investigations on the importance, biology and control of insects attacking cereal and forage crops including sugarcane in the field.

Forest Insect Investigations - J. A. Beal, in charge; D. E. Parker, first assistant; W. L. Baker, assistant. 3148 South Bldg., U.S.D.A. Tel. Republic 7-4142, Ext. 6011.

Conducts scientific and operating phases of a research program relating to investigations and development of methods of control of insects which injure forest, shade and ornamental trees and shrubs, and crude and finished forest products; supervision of surveys and technical assistance on forest insect control projects.

ORGANIZATION - Continued

Divisions - Continued

Research - Continued

Fruit Insect Investigations - B. A. Porter, in charge; Howard Baker, assistant. 3126 South Bldg., U.S.D.A. Tel. Republic 7-4142, Ext. 2987. Conducts scientific and operating phases of a research program relating to investigations on and the development of control measures for insects affecting tree fruits, nuts, grapes and certain small fruits; investigations on citrus blackfly, and tropical fruit flies and other insects that threaten fruit production in the continental United States; investigations on Japanese beetle and European chafer.

Insect Detection and Identification - C. F. W. Muesebeck, in charge; W. H. Anderson, first assistant; K. Dorward, assistant in charge of detection and reporting section. 3136 South Bldg., U.S.D.A. Tel. Republic 7-4142, Ext. 4381.

Conducts scientific phases of a research program relating to investigations on the taxonomy and classification of insects involving the identification of insects that are of interest in economic entomology and insect classification which is fundamental to exact identification; this service is performed for research workers engaged on entomological problems both within the United States and throughout the world; research papers on the identification and classification of different groups of insects are prepared and published; directs a nation-wide service actively involving economic insect detection and reporting.

Insecticide Investigations - R. C. Roark, in charge; Ruth L. Busbey, assistant. Agricultural Research Center, South Laboratory, Beltsville, Md. Tel. Tower 9-6430, Ext. 319.

Conducts scientific phases of research program relating to investigations to develop better insecticides, attractants, repellents, and materials used with them, including chemical and physical problems relating to their composition, action, application and manufacture; also biological screening of materials for insecticidal properties and physiological studies of the mode of action of insecticides.

Insects Affecting Cotton and Other Fiber Plants - K. P. Ewing, in charge; T. P. Cassidy, assistant. 4137 South Bldg., U.S.D.A. Tel. Republic 7-4142, Ext. 2596.

Conducts scientific and operating phases of a research program relating to investigations on the biology and control of insects affecting cotton and/or other fiber and rubber plants.

Insects Affecting Man and Animals - E. F. Knipling, in charge; H. H. Stage, assistant. 4144 South Bldg., U.S.D.A. Tel. Republic 7-4142, Ext. 4383.

Conducts scientific phases of research program relating to investigations of insects attacking man and domestic animals and devises means for their destruction or control.

ORGANIZATION - Continued

Divisions - Continued

Research - Continued

Stored Product Insect Investigations - Randall Latta, in charge;
L. S. Henderson, assistant. 4143 South Bldg., U.S.D.A.
Tel. Republic 7-4142, Ext. 3300.

Conducts scientific phases of a research program relating to investigations on the treatment and control of insects affecting products in storage, manufacture, transit, and retail distribution, and insects inhabiting buildings, excluding the insects that attack man and animals, or the buildings.

Truck Crop and Garden Insect Investigations - G. J. Haeussler, in charge;
D. J. Caffrey, first assistant; L. B. Reed, assistant. 4149 South Bldg.,
U.S.D.A. Tel. Republic 7-4142, Ext. 4791.

Conducts a research program relating to investigations of the habits, the development, and the determination of control methods for insects and related pests of vegetables, sugar beets, tobacco, strawberries, and brambles, flowers, bulbs, greenhouse crops and mushrooms, and the prevention of insect contamination in vegetables and fruits to be processed.

Regional Offices

Region I - R. G. Richmond, U.S.D.A. Bldg., 20 Sanderson St., P. O. Box 72.
Greenfield, Mass. Tel. 3648.

Control Projects -

Golden Nematode - J. F. Spears, project leader. 35 Broadway,
Hicksville, L.I., N. Y. P. O. Box 104. Tel. 3-0009.

Directs operating and technical phases of Federal-State cooperative program to control the golden nematode by (a) providing technical service, (b) assisting in the enforcement of the State quarantine to regulate shipment of restricted products originating on infested lands, and (c) conducting nematode surveys to determine the extent of infestation.

Gypsy and Brown-tail Moths - J. M. Corliss, project leader.

Directs operating and technical phases of Federal-State cooperative program to control and eradicate gypsy and brown-tail moths by (a) enforcing Federal and State quarantines regulating the movement of forest products and other commodities likely to carry gypsy moth egg masses to uninfested areas, (b) coordinating field application of sprays to eradicate outlying infestations, (c) providing technical assistance to towns and communities within infested territory, and (d) conducting surveys to determine the extent of infestation.

Japanese Beetle - William Middleton, project leader. 209 River St.,
Hoboken, N. J. P. O. Box 461. Tel. 3-7400.

Directs operating and technical phases of Federal-State cooperative program to retard spread of the Japanese beetle by (a) providing technical service, (b) enforcing Federal and State quarantines regulating the movement of products from infested to noninfested areas, (c) fumigating and treating commodities that might carry infestation and (d) coordinating field operations to suppress and eradicate outlying infestations.

White Pine Blister Rust - E. C. Filler, project leader.

Directs operating and technical phases of Federal-State cooperative program to control the blister rust disease by (a) providing technical service, (b) enforcing Federal-State quarantines to prevent spread of rust through movement of host plants into restricted areas, (c) conducting host plant surveys to establish production units for white pine, (d) coordinating control operations of cooperating agencies and (e) developing and demonstrating improved control methods and equipment.

ORGANIZATION - Continued

Regional Offices - Continued

Region II - W. G. Bruce, in charge. BEPQ Bldg., 3505-25th Ave., P. O. Box 989.
Gulfport, Miss. Tel. 4171.

Control Projects -

Phony Peach and Peach Mosaic - A. E. Cavanagh, project leader.

Directs operating and technical phases of Federal-State cooperative program to control these diseases by (a) eradicating outlying infections, (b) giving technical guidance to growers in severely infected areas where they undertake area wide control, (c) cooperating in the enforcement of State quarantines regulating production and shipment of peach nursery stock to prevent spread of the disease into uninfected areas, (d) conducting surveys to determine the extent of infection and (e) coordinating control operations.

Sweetpotato Weevil Control - M. S. Yeomans, project leader.

Directs operating and technical phases of Federal-State cooperative program to control this insect by (a) providing technical service, (b) conducting surveys to determine the extent of infestation, (c) establishing non-potato growing areas to eradicate outlying infestations, (d) enforcing Federal and State regulations on planting, storing, and shipping of potatoes, and (e) coordinating control activities of cooperating agencies.

White-fringed Beetle - R. A. Roberts, project leader.

Directs operating and technical phases of Federal-State cooperative program to control this insect by (a) conducting surveys to determine extent of infestation, (b) assisting States in enforcing Federal and State quarantines to prevent spread of pest to uninfested areas, (c) furnishing technical assistance in organizing and implementing control programs within known infested areas; and (d) coordinating control operations of cooperating agencies.

Region III - L. F. Curl, in charge. 569 Federal Bldg., P. O. Box 2300,
San Antonio, Texas. Tel. Fannin 7141, Ext. 275.

Control Projects -

Citrus Blackfly - N. O. Berry, project leader. 213 South H St., P. O.
Box 1968, Harlingen, Texas. Tel. 591.

Directs operating and technical phases of Federal-State cooperative program to prevent the spread of citrus blackfly from infested areas in Mexico into the United States by (a) cooperating with Mexico on surveys to locate and suppress incipient infestations near the Border, (b) furnishing technical service on effective spray measures, (c) maintaining strict border inspection of host plant material and (d) inspection of citrus areas adjacent to the Mexican Border to quickly detect and eradicate new infestations.

Mexican Fruit Fly - N. O. Berry, project leader.

Directs operating and technical phases of Federal-State cooperative program to prevent the spread of the Mexican fruit fly from limited, infested areas in the United States to other fruit-producing areas by (a) conducting surveys to detect new infestations in Texas, (b) providing technical assistance, (c) coordinating control operations to eradicate infestations and (d) assisting in the enforcement of Federal and State quarantine regulations.

ORGANIZATION - Continued

Regional Offices - Continued

Region III - Continued

Control Projects - Continued

Pink Bollworm - R. W. White, project leader.

Directs operating and technical phases of Federal-State cooperative program to control the pink bollworm by (a) conducting surveys to determine extent of infestation, (b) assisting in enforcement of State and Federal quarantine regulations to prevent spread to uninfested areas, (c) establishing non-cotton zones to eradicate outlying infestations, (d) coordinating control operations of cooperating agencies and (e) providing technical service.

Wild Cotton Eradication - W. E. Conn, project leader. 2204 Salzedo St., P. O. Box 1198, Coral Gables, Florida.

Directs operating and technical phases of Federal-State cooperative program for eradication of wild cotton in southern Florida to prevent establishment and spread of pink bollworm in Eastern cotton belt by (a) providing technical service, (b) surveying areas to determine extent of infestations and (c) conducting and coordinating wild cotton eradication operations.

Region IV - W. V. Benedict, in charge. 1515 Clay St., Sixth Floor, Oakland, Calif. Tel. Twinoaks 3-6330, Ext. 121.

Control Projects -

Hall Scale Eradication - E. H. Fosen, project leader. 336 Broadway, Chico, Calif. Tel. 2373.

Directs operating and technical phases of Federal-State cooperative program to eradicate Hall scale by (a) providing technical service, (b) conducting surveys to locate infestations, (c) applying insecticides and fumigants to eradicate insect and (d) removing and destroying infested host plants of little economic value.

White Pine Blister Rust - T. H. Harris, project leader. (See description under Region I, page 6.)

Region V - H. L. Smith, in charge. 301 Metropolitan Bldg., Minneapolis, Minn. Tel. Main 3244, Ext. 200.

Control Projects -

Barberry Eradication - R. O. Bulger, project leader.

Directs operating and technical phases of Federal-State cooperative program to eradicate barberry for control of stem rust of small grains by (a) providing technical service, (b) coordinating control operations of cooperating agencies, (c) conducting surveys to determine identity and distribution of races of the rust, (d) assisting in enforcement of Federal and State quarantine regulations and (e) developing and demonstrating improved methods of barberry eradication.

Grasshopper Control - J. R. Dutton, project leader. Bldg. 85 Federal Center, P. O. Box 1056, Denver, Colorado. Tel. Belmont 3-3611.

Directs operating and technical phases of Federal-State cooperative program to control grasshoppers and Mormon crickets by (a) providing technical service, (b) developing and demonstrating improved control measures, (c) conducting surveys to determine the extent of infested areas, and (d) coordinating control operations of cooperating agencies.

White Pine Blister Rust - H. N. Putnam, project leader. (See description under Region I, page 6.)

LABORATORIES, OFFICES, AND FIELD HEADQUARTERS

In the following list the terms "laboratory" and "area office" refer to units which report directly to the head of the division or project leader. The terms "sublaboratory" and "district office" refer to units that report through a laboratory or area office. The term "suboffice" refers to a unit that reports to a district office.

Administrative Regions are indicated after each activity by R-I, R-II, R-III, R-IV, or R-V. If no region is shown, the office or laboratory reports to Washington, D. C.

ALABAMA

Florala

Cereal and Forage Insect Investigations (laboratory). Hughes Bldg.,
P. O. Box 132. Tel. 8-0405. H. C. Young, in charge.
Investigations of white-fringed beetles.

R-II

White-fringed Beetle Control (area office of Gulfport, Miss. project
hdqrs.). Hughes Bldg., P. O. Box 187. Tel. 64.
W. O. Owen, in charge.

R-II

Mobile

Plant Quarantines (district office of New Orleans, La. area office).
463 U. S. Courthouse & Customhouse, P. O. Box 1413, Zone 8.
Tel. 2-3641, Ext. 223. J. R. Wood, in charge.

R-II

Sweetpotato Weevil Eradication (area office of Gulfport, Miss.
project hdqrs.). 111 Federal Bldg., P. O. Box 670.
Tel. 2-3641, Ext. 214. D. E. Read, in charge.

R-II

White-fringed Beetle Control (area office of Gulfport, Miss.
project hdqrs.). 111 Federal Bldg., P. O. Box 670.
Tel. 2-3641, Ext. 214. K. S. Rohwer, in charge.

R-II

Monroeville

White-fringed Beetle Control (area office of Gulfport, Miss.
project hdqrs.). Simmons Bldg., P. O. Box 409.
C. L. Stanford, in charge.

R-II

Montgomery

White-fringed Beetle Control (area office of Gulfport, Miss.
project hdqrs.). 304 Old Post Office Bldg., P. O. Box 1886.
Tel. 3-7861. Madimore Brunson, in charge.

R-II

Spring Hill

Insects Affecting Man and Animals (sublaboratory of Kerrville,
Texas laboratory). Laboratory State Nursery (7 miles west of
Mobile on Old Shell Road). P. O. Box 2217. Tel. Mobile 78-4646.
J. M. Coarsey, in charge.
Investigations on life history, habits and control of imported
fire ant.

R-III

ALASKA

Anchorage

Plant Quarantines (district office of Seattle, Wash. area office).
136 Federal Bldg., P. O. Box 312. Tel. 44261.
J. H. Gayden, in charge.

R-IV

ARIZONA

Douglas

Plant Quarantines (district office of Brownsville, Texas area office). 207 U. S. Inspection Station, P. O. Box 943. Tel. 64.
B. R. Anderson, in charge.

R-III

Mesa

Insects Affecting Cotton and Other Fiber Plants (laboratory).
Post Office Bldg., P. O. Box 534. Tel. 5262.
L. W. Sheets, in charge.
Investigations on the biology and control of insects affecting cotton, and/or other fiber and rubber plants.

R-IV

Naco

Plant Quarantines (district office of Brownsville, Texas area office).
107 U. S. Border Station. Tel. Bisbee 085-F.W.1, temporarily vacant.

R-III

Nogales

Mexican Fruit Fly and Citrus Black Fly Control (district office of San Ysidro, Calif. area office). 210 Federal Bldg., P. O. Box 127.
Tel. 276. W. E. Gunderson, in charge.

R-III

Plant Quarantines (district office of Brownsville, Texas area office).
128 Federal Inspection Station, P. O. Box 688. Tel. 276.
G. F. Callaghan, in charge.

R-III

Phoenix

Grasshopper Control (district office of Elko, Nevada area office).
1743 West Culver St., Zone 3. Tel. Alpine 3-8886.
T. J. Schmitt, Jr., in charge.

R-V

Truck Crop and Garden Insect Investigations (laboratory).
1743 West Culver St., Tel. Alpine 3-8886. O. A. Hills, in charge.
Investigations of insects affecting cantaloups and lettuce, and of sugar beets grown for seed.

R-IV

Safford

Pink Bollworm Control (suboffice of Las Cruces, N. Mex. district office). 309 U. S. Post Office Bldg., P. O. Box 246. Tel. 10.
G. F. McLain, in charge.

R-III

ARIZONA - Continued

Tempe

Cereal and Forage Insect Investigations (sublaboratory of Bozeman, Mont. laboratory). 415 East 8th St., Tel. 2156. O. L. Barnes, in charge. Studies on the biology and control of grasshoppers. R-V

Tucson

Bee Culture and Biological Control (laboratory). 304 Agricultural Bldg., University of Arizona, Zone 11. Tel. 3-6955, Ext. 249. F. E. Todd, in charge. The effect of insecticides and various agricultural practices on insect pollination. Behavior and use of honey bees and other insects in the pollination of economic plants in the Southwest. R-IV

Insects Affecting Cotton and Other Fiber Plants (laboratory). 232 Federal Bldg., Broadway and Scott Sts., Zone 8. P. O. Box 1910. Tel. 41311. W. A. Stevenson, in charge. Investigations on the biology and control of insects affecting cotton, and/or other fiber and rubber plants. R-IV

ARKANSAS

Nashville

Phony Peach and Peach Mosaic Control (district office of Tyler, Texas area office). P. O. Box 236. Tel. 1081-J. A. C. Copeland, in charge. R-II

CALIFORNIA

Albany

Bee Culture and Biological Control (laboratory). 1050 San Pablo Ave., University of California Gill Tract, P. O. Box 8. Tel. Landscape 5-1727. J. K. Holloway, in charge. Rearing, colonization, and field studies of insect enemies imported for biological control of the Klamath weed. R-IV

Anaheim

Cereal and Forage Insect Investigations (sublaboratory of Beltsville, Md. laboratory). Post Office Bldg., 113 West Broadway, P. O. Box 511. Tel. 4365. Wayne L. Howe, in charge. Studies of pea aphid control in alfalfa. R-IV

Insecticide Investigations (laboratory). Post Office Bldg., 113 West Broadway, P. O. Box 511. Tel. 4365. G. T. Bottger, in charge. Biological testing to determine effectiveness of new insecticidal materials. R-IV

CALIFORNIA - Continued

Berkeley

Forest Insect Investigations (laboratory). 29 Forestry Bldg.,
University of California, Zone 4. Tel. Ashberry 3-7747.
C. B. Eaton, in charge.
Investigations, surveys and technical supervision of forest insect
control projects in California.

R-IV

White Pine Blister Rust Control Development and Improvement
(project hdqrs.). 4 Forestry Bldg., University of California,
Zone 4. Tel. Ashberry 3-5252. H. R. Offord, project leader.
